

Job Title: Operations Manager

Location: London, UK

Job Description

If you have a passion for the Energy market, then this is the role for you!! Our client urgently seeks an Operations Manager to manage the technical and commercial aspects of the company's allocated contracts and customers, to ensure sales and margin targets are achieved and, where possible, exceeded.

The Company

The Company is the only one of the UK's top six energy companies to bring together energy, energy solutions, telecoms and engineering expertise. End-to-end solutions are designed to help customers deal with the fundamental energy challenges.

The Role

As well as managing the technical and commercial aspects driving sales targets, the Operations Manager will ensure that work is carried out in an organized manner, in conformance with all contractual and regulatory requirements and that all policies and processes within the business are adhered to.

The Operations Manager reports into the Business Manager and is a key and valued member of the Business Unit.

Key Responsibilities

- ensuring the on time, within scope and within budget delivery of support services, including injected works orders, to customers.
- direct line management of Support Engineers, who will be maintaining, repairing and upgrading customer systems.
- manage Support Contracts to a total value of £1m - £1.2m each year.

Required Experience & Skills

Candidates must:

have a minimum of 5-years' experience operating as either an Operations Manager or similar within the BMS & Controls, Construction or Mechanical & Electrical industry.

have proven and verifiable experience of operations management in the industries outlined above.

have experience of managing and motivating people, setting objectives and inspiring other to achieve.

have a track record of successful operations management delivering against objectives and budget.

have the ability to think laterally and creatively to develop innovative solutions to challenges and identify opportunities for improvement and advantage.

be resilient and tenacious with strong value set.

be extremely well organised and able to manage a number of contracts and customers at any one time.

ensure that work is carried out in an organized manner, in conformance with all contractual and regulatory requirements and that all policies and processes within the company are adhered to, including but not limited to, the Authorities Matrix and Overspend process.

Remuneration & Hours

The role is offered as a permanent position, salary up to £60,000 per annum, depending on relevant experience and benefits package to be discussed.

Hours will be typically 8.00am -5.00pm, but a degree of flexibility will be required.

Location

The candidate will ideally be based within the region in which the role operates, typically in the London Area.

Please forward your CV today for consideration.

As an equal opportunities employer, all applicants will be required to provide proof of eligibility to work in the UK.
